PROFESSIONAL SUMMARY

Results-driven Computer Science Engineer with **6+ years of experience** in Fullstack development. Specialist in building scalable web applications using **React** and **PHP/Laravel**. Proven track record of leading high-impact projects, including CRM integrations for major social media APIs (WhatsApp, Instagram, Facebook) and specialized e-learning platforms. Strong focus on **UX/UI**, **Disciplined Agile Delivery (DAD)**, and delivering clean, maintainable code.

TECHNICAL SKILLS

- **Languages:** PHP (Advanced - 6 yrs), JavaScript/TypeScript (5 yrs), Python, C/C++, HTML5/CSS3 (7 yrs) Go(1 yr).
- **Frontend: React (**Advanced**)**, Tailwind CSS (Advanced), Angular (Intermediate), Vue.js, Responsive Design.
- **Backend & DB: Laravel (**Advanced**)**, SQL (MySQL/PostgreSQL), MongoDB.
- **Tools & Platforms:** Linux (Server Administration), Git/GitHub, Docker, AWS (Intermediate).
- **Soft Skills:** Technical Leadership, Critical Thinking, Project Management, Agile Methodologies.

WORK EXPERIENCE

LeadSales | *Full Stack Software Developer II Sep 2021 – Jan 2026 (Querétaro, MX)*

- **Develop** the key modules for the "Leadsales" CRM, enabling seamless multi-channel communication for WhatsApp, Instagram, and Facebook.
- **Optimized frontend performance** by implementing React best practices, reducing load times and improving the UX for thousands of concurrent users.
- **Managed project lifecycles** using Disciplined Agile Delivery (DAD), ensuring on-time delivery of complex integrations with social media APIs.
- Collaborated cross-functionally to translate business requirements into technical solutions that scaled the platform's messaging capacity.

GSCOMP | *Full Stack Developer Jun 2018 – Jul 2021 (Querétaro, MX)*

- **Developed and coordinated** web applications for networking and telecommunications based on the Laravel framework.
- Built dynamic user interfaces using **Angular and Vue.js**, focusing on data visualization and real-time network monitoring.
- **Designed and tested UX/UI proposals**, increasing user satisfaction scores by streamlining complex configuration workflows.
- Led technical support and maintenance for mission-critical networking servers.

EcoMaker | *Computer Technician Jan 2017 – Nov 2017*

- Performed maintenance and refurbishment of enterprise-grade servers and hardware.
- Provided technical consultancy and customer service regarding hardware optimization.

MAJOR PROJECTS

E-learning Roche (Healthcare Sector) *Laravel + React*

- Architected a digital learning platform for medical professionals, featuring complex course management, secure assessments, and user progress tracking. Focus: Usability and secure data handling.

Finance Tracker App *React + TypeScript*

- Developed a full-stack personal finance tool for budget tracking and automated reporting. Implemented advanced state management and data visualization charts.

EDUCATION

Instituto Tecnológico de Estudios Superiores de Monterrey (ITESM) *B.S. in Computer Science*
*Graduated: Dec 2022 | **GPA: 90/100***

AWARDS & CERTIFICATIONS

- **Recognition:** Best Computer Organization Project (Expo Engineers ITESM 2021 & 2018).
- **Certifications:** * CISCO NetAcad Linux Certification & CCNA Introduction to Networks.
- **Additional Skills:** Certified Pre-hospital Emergency Medical Technician (Intermediate Level).
